

Laserworld CUBE 1.5

Mobile-app controllable laser system!

The Laserworld CUBE 1.5 is equipped with a built-in battery (3.500 mAh), enabling flexible and wireless operation. This powerful, semi-professional diode laser with analog modulation is designed to create striking effects such as beams, waves, tunnels, and simple graphics. It features plug-and-play operation in music mode, sound-to-light control, DMX compatibility for synchronization with other lighting systems, and an ILDA connector for professional computer control. Additionally, the Laserworld CUBE 1.5 supports master-slave mode. With the mobile app specially developed for the CUBE, effects can be easily customized, and the laser can be controlled directly from a smartphone or tablet. Perfect for small to medium-sized clubs, indoor events, and mobile DJs.

- Controllable via mobile-app
- built-in battery (3.500 mAh)
- Typical power of 1'500 mW
- Diode-only laser system
- Computer controllable via ILDA
- Sound-to-light and stand-alone mode
- DMX controllable, master-slave operation possible
- 25kpps @ 8° scanners

TECHNICAL DETAILS

Total Power	1'500 mW	Laser Source	Diode
Guaranteed Power	1'500 mW	Basic Patterns	over 250 Patterns (level, tunnel, grid, waves, etc.)
Power Red	450 mW / 638 nm	Accessories	power cable, manual, interlock, key
Power Green	350 mW / 520 nm	Power Supply	85 V - 250 V AC, 50/60 Hz
Power Blue	1000 mW / 450 nm	Power Consumption	30 W
Beam Specifications	ca. 5.5 mm / 1.1 mrad	Dimensions	200x165x141 mm
Scanner	25kpps @ 8°	Weight	3.5 kg
Max. Scan Angle	30°	EAN / MPN	7640144990510
Operation Modes	Auto, DMX, ILDA, S2L, Mobile-APP		
Laser Class	4		

*Due to Advanced Optical Correction technology used in our laser systems the optical power of each colour within installed laser module(s) may slightly differ from the specification of respective laser module(s). Divergence FWHM average depending on model.
