

## Laserworld CUBE 3

Mobile-app controllable laser system!

Equipped with a built-in battery (3.500 mAh), the Laserworld CUBE 3 allows for flexible and wireless operation. This semi-professional diode laser with analog modulation delivers powerful effects such as beams, waves, tunnels, and simple graphics. It offers plug-and-play functionality in music mode, sound-to-light control, DMX compatibility for synchronization with other lighting systems, and an ILDA connector for professional computer control. The Laserworld CUBE 3 also supports master-slave operation. Using the mobile app specifically developed for the CUBE, effects can be easily customized, and the laser can be controlled directly from a smartphone or tablet. Ideal for small to medium-sized clubs, indoor events, and mobile DJs.
